

## Hedge Packs

Farm hedging tends to be a mixture of native tree species seen all over the countryside and stretching for miles.

Trees Please hedge packs contain a pre-determined mix of native hedge plants which is predominantly hawthorn. Hedge packs are supplied in 10 metre packs (60 plants) or 100 metre packs (600 plants) and normally planted in a double row to achieve a dense hedge. You can buy one year old hedge pack A plants in two sizes (see below), and hedge pack B two year old plants in one size. Plants can be purchased with or without guards. **Hedge packs must be ordered in multiples of 10 metres. Orders of less than 100 metres will incur a small supplement per metre for plants and also for guards (if required).**

Pack A – Common native mix – One year old plants, 30/50cm tall. Also with the option of 50cm+ hawthorn.

A common native mix of 70% hawthorn, 20% blackthorn and the remaining 10% includes: crab apple, field maple and hazel. Please see the table below for number of species per pack:

Pack A	10 Metres	100 Metres
Hawthorn	42	425
Blackthorn	12	125
Crab Apple	2	17
Field Maple	2	17
Hazel	2	16
<b>Total Plants</b>	<b>60</b>	<b>600</b>

Guards can also be purchased with hedge packs. To view the different guards available please see our [Mixed Farm Hedging Plants and Guards PDF](#) in the INFO CENTRE section located on our home page

Pack B – Common native mix – Two year old plants, 40/60cm tall.

A common native mix of 70% hawthorn, 20% blackthorn and the remaining 10% includes: crab apple, field maple, hazel, guelder rose and dog rose. Please see the table below for number of species per pack:
